

Model BRIVC

Vegetable Cutter

L **M**

Light Duty; Manual Operation

The Brice Vegetable Cutter is designed for ease of use, quick cleaning, safe operation and neat portioning.

The base is manufactured from tough, durable High Density Polyurethane. The bow, fittings and supports are constructed from Bright Chrome-plated steel. The precision-ground Stainless Steel blade is replaceable and the entire bow structure is easily removed for cleaning. The cutter is fitted to a strong, stable galvanised base table.

Operating Instructions for the Brice Vegetable Cutter

The Brice Vegetable Cutter is intended for use in cutting vegetables and fruit, such as pumpkin, marrow, water melon, rock melon, etc.

Only competent and authorised persons who have been properly trained should use the Vegetable Cutter.

- Check that the Cutter is positioned on a stable surface.
- Lift the Cutter bow and place the vegetable or fruit to be portioned on the base plate, hard up against the two holder brackets.

- Grasping the handle of the Cutter, bring the bow down onto the vegetable or fruit and exert a slow steady pressure on the handle to drive the blade through the food product.
Use ONLY the handle to raise or lower the Cutter blade. Using any other method increases the risk of injury.
- Raise the bow by the handle and reposition the vegetable or fruit as required.
- Repeat Steps 3 & 4 until the vegetable or fruit has been reduced to the required size.
- When all cutting has been completed, make certain that the Cutter bow and blade are in the lowered position on the base plate.
DO NOT leave the bow raised when the Cutter is unattended.
- Cleaning – The blade, bow and base plate should be wiped over each day with a clean damp cloth.
DO NOT use caustic chemicals as this may damage the Chrome-plated finish.

Vegetable Cutter Dimensions (including table):

Depth: 745mm	Width: 495mm	Height: 620mm	Weight: 20kg
